

The Ronald McDonald House Charity (RMHC) uses the slogan, “Our homes are filled with more than help, they’re filled with hope.” With our visit to the Inland Empire RMHC, the Riverside team truly understood why this was RMHC’s mantra. Knowing you are not alone and have support during a tough time can really provide that little piece of hope that is much needed to push through and not give up. The Ronald McDonald house Charity provides hope for so many families across the world.

Being able to donate and visit a Ronald McDonald House was such a pleasure. Our contact shared with us that our donation helped cover the stay of a family who had been at the RMH since November. The mother of the family was so grateful and touched that our company would help them without even knowing them.

While at the Ronald McDonald House, we became aware that snacks were in great need. We are gathering up snacks to take over to RMH to help families that do not have time to sit and eat. They can just grab a quick bite and head towards the hospital to be with their loved ones.

Overall, our participation was very fulfilling. We were able to provide a little assistance to those in need and was a great bonding experience for the Riverside team. We look forward to keeping in touch with RMH – Inland Empire and more opportunities to show that HARBRO cares.
